Fantastic gameplay and wonderful experience. The story is great and completely immerses you in the gameplay.. Love racing in the "Safety Car" Merc SLS AMG, it's fun to make the AI slow down.

In general this DLC has limited features for me. It only has the Mercedes cars added to the list. The White Ravenwest liveries are sexy and nice to drive with though :). It seems like I am one of the few that was able to have a correct experience with Gary! The game didn't crash for me, and I was able to say my name, and Gary acknowledged it. The experience in it self it's not breathtaking or anything, but I am personally very interested in seeing more of what VR can do with characters that react to your actions, and make you part of their world.

I also like that I fell for that dumb trick "look that way!" :p

I hope the devs wont just stay with this experience only, and that this is a experiment for bigger and more developed things to come!. I wanted this to be good, I love alien abduction stories. I know it's just a demo but it looks like it was thrown together in half an hour. Looks terrible, plays poorly, and absolutely nothing original to see here. Honestly wouldnt recommend it even if it was a free download.. Imagine if Pong had a bigger brother that did both steroids and light hallucinogenics.

Now stop wasting your time imagining Wand Wars and just buy it instead.

It's definitively worth it's pricetag, It's both charming and challanging.

It knows excatly what it want's to be and nails it HARD.

Fantastic hockey sim.

Builds on the strong foundations of FHM 4.

Better tade AI.

UI improvements.. DearCraft is a great concept but needs a bit of refinement. It's like the creative mode in Minecraft but without the survival elements. Personally it didn't run very well on my PC, a bit buggy.

You can watch my brief impressions here

.I would recommend this game if you can get it on sale. It is too short, 50 levels, for full price. I bought it on sale so I am satisfied.. Classic game, never had so much fun being a frog that vomits balls of varying colors as in this game.
